Industrial Visit to

BATCO integrated Logistics Pvt Ltd, Patancheru

On October 04, 2018

Batco Integrated Logistics Pvt Ltd.:-

An Industrial Visit was organized on 4th Oct 2018 by SIBM-Hyderabad for Operations management students of batch of 2017-2019, as part of their experiential learning of logistics course work and for enhancing their practical knowledge on the processes of container handling, import export and Container Freight Stations (CFS) role in logistics.

Technical Observations at Batco:-

1. Documentation in imports and exports trade
2. Overlook on the logistics activities conducted by Batco
3. Types of containers, technology and different machinery used for managing the warehouses
4. Handling and storage of containers
5. Cold storage for pharma products and perishables
6. Policies related to auction in concern with containers
7. Maintenance of refrigerated containers and during transit

Observations by Students:-

1. Loading and unloading of the containers which have arrived to the CFS.
2. Loading and unloading activities done by machines and man

3. Containers which can maintain required temperature and conditions in it while its being transported
4. Refrigerated containers for air transport
5. Maintenance of cold zone
6. Documentation procedure
7. Safety in container handling

Conclusion:-

Visit was very informative and useful for students to see and feel the logistics process, EXIM procedures and documentation processes. It would be useful for them at some in their career.
