Blood Donation Drive

Date:- July 31, 2019

Truly understanding the very essence of this quote, ***“Bring a life back to power, make Blood Donation your Responsibility”***, a Blood Donation drive was organized at Symbiosis Hyderabad campus on the auspicious occasion of celebrating the birthday of our Founder President **Dr. S B Mujumdar** Symbiosis Society and Chancellor of Symbiosis International (Deemed University), Pune on July 31, 2019. The event began with a Nukkad Natak where students of the SIBM Women Development Cell (WDC) and Individual Social Responsibility (ISR) club presented a short and informative drama on the importance of saving life by donating blood. The drive was inaugurated by Dr. Ravi Kumar Jain, Director Symbiosis Institute of Business Management Hyderabad (SIBM-H) and Dr. S A Khan, Director Symbiosis Law School Hyderabad (SLSH). This drive turned out to be a big success with the donation of blood by **181 donors** which included both staff and students. This Drive was done in collaboration with Thalassemia and Sickle Cell Society, Hyderabad with a motto to make Thalassemia free Telangana. We, here at symbiosis campus, resolve to be a part of such events related to health and non-health areas in the coming future which in some or the other way is trying to help the members of society. The event was organized by members of SCOPE, SLS-H and health committee, ISR and WDC committee of SIBM-H.
